## Letter from Mayor Joseph Ganim

Welcome to the Bridgeport Art Trail.

We are proud to present and share Bridgeport's Art Trail, a wonderful showcase of our city's thriving arts and culture scene. Creativity and innovation are alive and well in our city. Bridgeport is known for historic big thinkers like P.T. Barnum, Elias Howe, Igor Sikorsky and Gustave Whitehead. They harnessed their inventive energy and helped reshape the world around them. Today, we continue to promote creativity in Bridgeport along with a supportive environment for artists to succeed and thrive. It is my strong belief that the arts community is an asset and resource for growth and improvement to quality of life in Bridgeport. I'm proud to support and participate in this weekend-long celebration of local art, artists and crafters.

The Bridgeport Art Trail map is an excellent tool to illustrate the proliferation of our arts community. This map will take you from our revitalized Downtown neighborhood, the hub of the Park City's arts and cultural scene where you'll find new public art featuring the Painted Stairway at the end of Broad Street, at Elm, *Read's ArtSpace*, *City Lights Gallery*, *Barnum Museum*, *the Housatonic Museum of Art* to the West Side, home of *NEST Arts Factory* and the *Klein Memorial Auditorium*, to the East Side where you'll find the *Artists of 305 Knowlton Street*, and in the East End, *American Fabrics Arts Building*.

Discover Bridgeport's creative side and use your Art Trail map all year-round!

Sincerely,

Mayor Joseph P. Ganim

## The South End, Seaside Park

### 4 Seaside Park

Entrance at the southernmost end of Park Avenue, Bridgeport  
[www.bridgeportct.gov/content/341307/341415/342203.aspx](http://www.bridgeportct.gov/content/341307/341415/342203.aspx)

With its 325 acres of lush lawns, shady glades and sports fields rolling toward Long Island Sound, Seaside Park is a park without peer on the Eastern Seaboard. Visitors are delighted by the beaches, surf and sunshine along three miles of sparkling coastline. The park was laid out just after the Civil War by Calvert Vaux and Frederick Law Olmsted, whose other efforts include Manhattan's Central Park and Prospect Park in Brooklyn. Their 19th century landscapes have proved timeless as they entice each new generation of park-goers. At the western end of the park is Fayerweather Island. Walkers can visit this natural wildlife preserve by crossing the breakwater rocks. The island's lighthouse guided navigators into Black Rock Harbor from 1823 to 1932.

Bridgeport's most famous resident, the 19th century circus impresario PT Barnum is largely responsible for the development of the park. Once pasture land, wood lots and salt marshes, Barnum envisioned the first marine "rural" park in the United States. Open daily from 8 am to 8 pm. Free admittance with no permit required from Labor Day to Memorial Day.

Among the prominent art at Seaside Park are the sculptures of PT Barnum created by Thomas Ball - bronzed in 1887 and Elias Howe by sculpted by Salathiel Ellis. A female figure atop the Sailors and Soldiers Monument faces Long Island Sound with her arm out-stretched holding a laurel wreath to honor those who served and sacrificed in the Civil War. The monument was created by Melzar Mosman. Through a partnership with the Friends of Seaside Park and City Lights & Company, in 2009 a missing liberty figure was replaced with a new cast created by Emily Bedard.

**Event: Thomas Mezzanotte: I See What You Meme Art Exhibit**

The role of the camera and lens-based imaging in the evolution of visual cognition. In this digital age, photographic imagery is ubiquitous. This provocative exhibit focuses on the basics of vision and how it has been influenced by the invention of the camera and mathematical perspective. Viewers are prompted to consider the history of photography, the camera obscura, and the process of sight. The exhibit runs through January 5, 2019.

Thomas's mind-bending photography represents his extensive exploration into the evolution of visual cognition. This exhibit focuses on work made exclusively with pinhole cameras and film. The rudimentary tools that he makes himself, harken back to the origins of photography. By manipulating the shape and orientation of the negative in the camera he creates provocative distortions of the human form. He is intrigued by the curvature of the retina in the human eye and what this suggest about how we see the world. The exhibit poses this question, "Why do we imagine the world as if it is projected onto a flat plain, when in fact the image of the world we see is projected onto a curved surface at the rear of the eye?"

Bridgeport Art Trail visitors will have the rare opportunity to view the exhibit at City Lights Gallery and then tour Thomas's working studio at the American Fabric's building (#1). Thomas will host an open house on Saturday and Sunday, Nov. 10 & 11 where the public can further discuss Thomas's perspective and process and view more of his art and his impressive collection of antique cameras. ## 27 305 Knowlton Street & Armstrong Gallery

305 Knowlton Street, Bridgeport, CT 06608  
203.338.9796 / [inquiries@305knowlton.com](mailto:inquiries@305knowlton.com)

305 Knowlton Street was once home to the Armstrong Manufacturing Company, a well-known tool and die manufacturer in the 1800s, and little-known creator of a technologically advanced prototype "horseless carriage" built in 1895. The building is located on the Pequonnock River estuary in the Washington Park Historic District on Bridgeport's East Side. Once referred to as "Pembroke City", it is an area rich with some of the finest examples of nineteenth century residential architecture in the country, largely due to PT Barnum and William Noble, who invested heavily in its development.

Today, 305 Knowlton houses a fresh mix of new innovators including small businesses, artists, and an art gallery. This repurposed factory building provides three floors of working studio spaces. 305 Knowlton's diverse community includes artistic talent in painting, drawing, photography, sculpture, and body painting. The Armstrong Gallery is a large, privately-run art space on the main floor with monthly shows, artist talks, live performances, and other events that contribute to our cultural vibrancy. There is plenty of off-street parking in the adjacent lot.

The 305 Knowlton artists and businesses maintain a close connection with our local Bridgeport neighborhoods and friends, and we often support or produce our own art programs, exhibits, and workshops in the Armstrong Gallery or the BoatHouse and Dock. Contact Sandy Terebesi for more info at 203-338-9796 about renting studios or event space.
